

Don't just live a life
You can do it, be alive
If asleep, open your eyes
Sit up, never lie down
Believe that you are alive
The spiritual, not the biological

Stand up, if sitting
Then walk, don't stop
Don't be just a battery
In the matrix of life
You are a human
Show that you are alive

Run, if walking
And fly, if on the run
Don't rent the purpose
Own it for your life

When flying, you can do it
The unbelievable, the thrive
Pass through the death
It's not a barrier, you're alive
Just believe in yourself
The unimaginable, you can try
