

Humanity is like an Endless Ocean

That

Each and every Human has it

And

Can utilize this possession in four different manners:

1. Stay in the shore and just view the scenery
2. Go into the water and enjoy having fun in it
3. Gain materialistic/non-materialistic income by doing business in it
4. Be the OCEAN and water the endless garden of BECOMING

Nonetheless

One can ONLY mix-up the first three manners with each other

And

BEING the OCEAN cannot be mixed with any other

The Goal of These Talks

Is to present and describe:

- All the Components which constitutes the Humanity
- All the Initial and Fundamental Possessions which are incorporated in our Cognitive, Emotional and Value Assets
- How the Components Interact according to the three Cognitive, Emotional and Value Assets

Selling Beliefs is NOT the Goal in These Talks

- Learning, Knowing and Understanding is the goal and neither Accepting nor Collecting Information-Pieces

- Without Distinguishing between What-is-Known and What-is-Not Known, it is **absolutely impossible** to learn, know and understand
- Making and Asking Questions is the ONLY TRUE MEANS for that distinction
- Without Eliminating the Speaker/Source and ONLY studying and trying to understand the speech/presented-info, Questions will be just EMPTY SHELLS

In order to be Free from the First 3

And

Thrive to be the Ocean

One has to:

- Start to refine the Cognitive/Emotional/Values Assets from Accepted Beliefs (which are NOT Learned/Understood)
- Start to Learn, Know and Understand All of Our Humanity
- Start to Execute/Perform Whatever that have Learned, known and Understood from Our Humanity
